This is the story of how the competition versions of the 155/156/147 family of cars were developed and subsequently raced to many championship titles and race wins. Alfa Romeo's 155 saloon was a comprehensively successful racing touring car that won the German and world-wide DTM Championship, and later ITC races. The model also took on the role of representing the company in national touring car championships throughout the world, most notably winning the British Touring Car Championship in 1994. The 156 was Alfa's successor to the 155 and was also raced with much success. This book follows the development and competition history of this model too, along with its sibling, the 147. Together, these models kept the Alfa Romeo name at the pinnacle of motor sport for many years, from 1992 to 2006, and will become future motorsport classics.

**Mercedes-Benz** Brian Long 2013-03-18 It's hard to believe, but the W129-series Mercedes-Benz SL was launched over 20 years ago. However, its timeless styling has kept it fresh and attractive in the eyes of a new generation of enthusiasts, as well as those returning to the car having owned one when they were still in the dealerships. A combination of superb original design and peerless engineering and build quality adds to the desirability of this series of classic German machines, and has ensured that many of these cars can still be seen in regular use today. Covering the SL's ever-changing specification, and its presence in many of the world's major markets is a huge task, but it's all presented here in definitive detail, along with stunning contemporary photography, in a volume that will readily grace any reference library shelf or connoisseur's coffee table. Two earlier books, also published by Veloce, and covering the W113 cars and the 107-series SL and SLC, act as perfect companions to this title, which takes the SL story up to 1989.

**Lotus Europa - Colin Chapman's mid-engined masterpiece** Matthew Vale 2022-04-13 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.
