Robots That Kill Judith A. Markowitz 2019-04-08 This book describes real-world killer robots using a blend of perspectives. Overviews of technologies, such as autonomy and artificial intelligence, demonstrate how science enables these robots to be effective killers. Incisive analyses of social controversies swirling around the design and use of killer robots reveal that science, alone, will not govern their future. Among those disputes is whether fully-autonomous, robotic weapons should be banned. Examinations of killers from the golem to Frankenstein’s monster reveal that artificially-created beings like them are precursors of real 21st century killer robots. This book laces the death and destruction caused by all these killers with science and humor. The seamless combination of these elements produces a deeper and richer understanding of the robots around us.

Information Ethics, Globalization and Citizenship Toni Samek 2017-03-22 The boundaries of citizenship have been blurred by global information systems—while the public and private spheres have been reshaped through globalization (and colonialism and capitalism). This collection of new essays explores information and citizenship in the digital age from a range of perspectives, presenting cautionary tales along with possibilities for “decolonizing” digital information and literacy. Topics include Wikileaks and the dissolution of information; ethical issues for teachers, policy makers and librarians; and creating safe spaces through ethical librarianship.

Jason and the Quest for the Ram with the Gold-Colored Fleece Michael Royea 2020-06-19 The power of friendship, and a little magic, can overcome the most challenging obstacles. Jason, a ne'er-do-well 12-year-old, is hired to find the prize-winning ram with the gold-colored fleece, which has been stolen a week before the big fair. Accompanied by five of his closest friends, the group sets sail on what will become an epic journey. Or at least a good excuse to skip school. They face many perils along the way, including a giant serpent, strange beings that may or may not be gods of war, and deceitful humans. Once they locate the ram, Jason must perform an impossible task with the help of Melanie, his love interest who is also a witch. The crew encounter more dangers on the voyage home and realize that getting the ram was the easy part. Someone will pay a terrible price and experience betrayal as they return the ram to its rightful owner. The quest evolves from a combined will to succeed to a test of the endurance of friendship.

The Supernatural Cinema of Guillermo del Toro John W. Morehead 2015-05-21 Guillermo del Toro is one of the most prolific artists working in film. His directorial work includes Cronos (1993), Mimic (1997), The Devil’s Backbone (2001), Blade II (2002), Hellboy (2004), Pan’s Labyrinth (2006), Hellboy II (2008) and Pacific Rim (2013). He has also worked extensively as a producer, with several screenwriting credits to his name. As a novelist he coauthored The Strain Trilogy (2009-2011), which he also developed into a television series for FX in 2014. Del Toro has spoken of the "primal, spiritual function" of his art, which gives expression to his fascination with monsters, myth, archetype, metaphor, Jungian psychology, the paranormal and religion. This collection of new essays discusses cultural, religious and literary influences on del Toro's work and explores key themes of his films, including the child’s experience of humanity through encounters with the monstrous.

Get Endless New Clients Arthur Cronos 2014-04-07 The death of a dream ... and awakening ...How many men and women awoke one day with a bright dream, a dream of their own business, something they could pour their heart and soul into, something they could trust, and bring something good to the world. And how it might grow, and the warm sensation of pride deep inside, and a hope that someday, a legacy, something to change the world, if only a little.But slowly, the dream twisted and darkening into something ominous, deepening into worry and pain, unhappy visions of something lost, grinding down the days. You're expert at your business, so why these endless days of alarm and trouble, sleepless nights, and where did the dream go?Perhaps you are one of them, ground into a morass of too-much work and too-little fun, and the sunshine vanished in the mist of what might have been. Struggling with cash, emergencies, and no time to think about increasing sales, more customers, if only ...Good news. At last, help has arrived, and you can remedy the slow drain, escape the struggle. Because fellow business-owner Arthur Cronos, the author of "Get Endless New Clients" is as expert at his business as you are at yours. And his business ... is marketing.That's important, for when a business struggles, it's rarely a lack of expertise. Because most entrepreneurs are brilliant at their core technology. They regularly produce excellence. But nearly all have one devastating weakness ... weak marketing.And that's because the learning curve of marketing is as steep as everything you mastered to learn your business. Few humans master both, and there's no time. The answer? Follow Arthur's method to build your own Automatic Selling System.You no longer need neglect your business to invest thousands of hours struggling to master. Instead simply follow the step-by-step analysis and guidance given in this book. With this inside information, never published before, create and install an Automatic Selling System, a "Sales Engine," custom-designed for your specific business, to ensure Reliable Cash Flow, month after month.FREE BONUS: Special Report "13 Deadly Marketing Mistakes that can Destroy Your Business, and How to Fix Them," and if you qualify, Profit Jet Newsletter and free "How-To" Business-Marketing Webinar Training Series.

The Ultimate Marketing Engine John Jantsch 2021-09-21 A STEP-BY-STEP SYSTEM FOR CREATING CUSTOMERS AND CLIENTS FOR LIFE. It is more difficult than ever for businesses and marketing professionals to cut through the noise to create relationships with their customers. Organizations that focus on converting their customers to members and helping them achieve the lasting transformation they are seeking rather than simply offering the transaction of the moment are winning. The Ultimate Marketing Engine promises to teach readers how to develop a system to take every customer from where they are to where they want to be by building on the innovative principles first brought to the marketing world in Duct Tape Marketing and honed over three decades of working with thousands of businesses. Introducing the Customer Success Track The Ultimate Marketing Engine introduces an innovative new approach to marketing strategy that will transform how readers view their business, their marketing and perhaps, even how they view every customer. Readers will learn: Why strategy must come before tactics. How to narrow your focus and choose only ideal customers. Why no one wants what you sell – and what they actually want. How to use story and narrative as the voice of strategy. How to construct the perfect customer journey. How to grow your business with your customers. This book will help readers take control of their marketing while creating ridiculously consistent business growth.

Gothic Science Fiction 1980-2010 Sara Wasson 2011-01-01 Gothic fiction's focus on the irrational and supernatural would seem to conflict with science fiction's rational foundations. However, as this novel collection demonstrates, the two categories often intersect in rich and revealing ways. Analyzing a range of works—including literature, film, graphic novels, and trading card games—from the past three decades through the lens of this hybrid genre, this volume examines their engagement with the era's dramatic changes in communication technology, medical science, and personal and global politics.
