Faster, Higher, Farther: How One of the World's Largest Automakers Committed a Massive and Stunning Fraud Jack Ewing 2017-05-23 "A rich history of a company whose cars, for better and worse, have touched millions of lives, a character study of a brilliant but deeply flawed leader, and a case study in how a corporate culture can turn toxic." —Bethany McLean, New York Times Book Review Faster, Higher, Farther chronicles a corporate scandal that rivals those at Enron and Lehman Brothers—one that will cost Volkswagen more than \$22 billion in fines and settlements. Through meticulous reporting, New York Times correspondent Jack Ewing documents why VW felt compelled to install "defeat devices" in diesel vehicles that unlawfully lowered CO2 levels during emissions testing, and how the fraud was committed, covered up, and finally detected. Faster, Higher, Farther is a briskly written account of unrivaled corporate greed. Updated with the latest information and a new afterword by the author.
