The Tangled Web They Weave Ivan L. Preston 1994 Ivan L. Preston, recognized as a preeminent scholar of the legal dimensions of American advertising, has written *The Tangled Web They Weave* for the ordinary consumer as well as for advertisers and trade regulators. His frank aim is to demonstrate how advertising can better serve its audience. Advertising, Preston points out, is full of falsity that is quite legal. Indeed, clever presentation of lies can make advertising entertaining to consumers, and Preston provides lively examples and anecdotes of such cases. The problem with falsity in advertising, he argues, is not so much with the bald lie as it is with deception. It is in this thicket of implied claims that he shows us the dangers and indicates the need for regulatory adjustment. Preston takes us down the slippery slope, from the high ground of honest product claims to the unscrupulous bottom-of-the-barrel claims that are wholly false. Along the way he documents the subtle misrepresentations, half and lesser truths, and exploitations of our gullibility that abound in contemporary advertising. The cases he describes are sometimes comic and sometimes shocking and infuriating. Preston's agenda is not merely to cry Foul! He sees advertising as performing not only a legitimate but an important public service. It is in all our interests, therefore, to perfect and not just pillory. As he concludes, "It is the time to see a way to serve society by creating a standard of personal and corporate credibility under which all advertisers, regulators, and consumers should want to live."

Lying and Deception Thomas L. Carson 2010-04-29 This is the most comprehensive and up-to-date investigation of moral and conceptual questions about lying and deception. Carson argues that there is a moral presumption against lying and deception that causes harm, he examines case-studies from business, politics, and history, and he offers a qualified defence of the view that honesty is a virtue.

Law & Advertising Dean K. Fueroghne 2017-03-01 In this lively, entertaining, and informative book, Dean K. Fueroghne guides readers through the complex laws governing the creation of advertising, illuminating a heavily regulated arena at the intersection of free enterprise and consumer protection. Is it acceptable to use images of real people, famous or not? Can Nike talk about Adidas in its promotional campaign? When can money be shown? What constitutes puffery, or deceptive truth, or bait-and-switch advertising? What are the specific rules pertaining to professional businesses, political advertising, or the marketing of alcohol or tobacco? What is the difference between copyright and trademark? Fueroghne answers these questions and more as he covers the complex laws relevant to advertising in all its guises. In addition to discussing specific cases, he explains the reasoning behind the court's decisions and how it affects the business of advertising. Students of strategic communication as well as advertising professionals—from agency account executives and copywriters to art directors and freelance designers—will learn to anticipate when proposed advertising may cause legal problems and how to avoid costly mistakes. Advertising lawyers will also appreciate the book as a handy reference that gathers in one place the many disparate laws affecting marketing and promotion in the United States today.
